PORTABLE CENTURION SCALE

From livestock weighing needs to cramped weighing stations, the B-TEK Portable Centurion Scale is your ideal solution for a flexible scale to adapt to various situations without compromising accuracy and functionality.

Encompassing the durability and efficiency of the renowned Centurion, the Portable Centurion Scale is equipped with a full portability frame and two integral-reinforced bulkhead assemblies. The entire frame has lock-down tabs to secure the weighbridge and the frame together for easy transport without any disassembly of the load cells mounts.

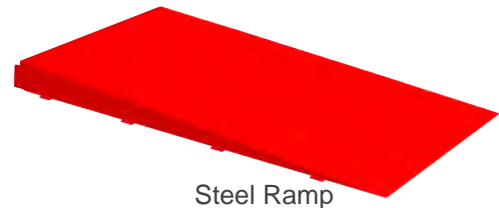

Whether it is set up in a parking lot or barn, the B-TEK Portable Centurion Scale is engineered to adapt to any of your weighing needs.
