MOBILE GROUP ANIMAL SCALE

Reliable Animal Weighing in All Types of Environments...

The Mobile Group Animal Scale is Rice Lake's latest Livestock Scale innovation. This concept has taken Rice Lake's popular animal scale and made it mobile - improving the scale's efficiency and versatility.

Durable Design

The Mobile Group Animal Scale's patented design consists of a rubberized deck and steel pen sides, suspended on load cells at four points within a mobile base frame. This base-frame also allows the scale to be towed behind a standard vehicle. When in transport mode, the cage is "locked-down" to the frame. This prevents cage movement and load cell damage during transport.

weighed. Results can be transferred to a memory stick and exported to a PC database or spreadsheet.

When the scale is in weigh-mode the rubberized deck is only six inches off the ground. The low profile of the weighing platform makes loading and unloading animals quick, easy and safe.

Easy to Use

The mobile scale employs an independent air ride suspension which enables the scale to be moved in and out of weighing mode by simply adjusting the air pressure in the air bags. Load is applied to, or removed, from the cells through a manual lift/lower lever system.

ON-BOARD WEIGH CENTER

The weigh center is conveniently mounted on the exterior of the cage so that all transactions are easily viewed by the operator. A legal ticket can be printed for your records. The weather proof enclosure protects the instrumentation and printer, for years of trouble-free use. A USB port allows data to be exported to spreadsheet.

Date:	August 10, 2012	Time:	13:26
#Head	Total	Average	
6	8,816 lbs	1136 lbs	
10	9,920 lbs	992 lbs	
12	12,180 lbs	1015 lbs	
Gross Batch Total		29	28916 lbs 1033 lbs
Net Batch Total		28	28626 lbs 1022 lbs
Shrink Value 1%			

Rugged Versatility

Rice Lake's On-Board weighing design is ideally suited to the unpredictable conditions of multi-site use. The Mobile Group Animal Scale is capable of providing Legal-for-Trade weights in locations where the scale may be off-level by as much as four degrees.

In addition to the scale's ability to meet the physical demands of remote weighing, the instrumentation package that complements the scale provides a complete report for each batch and lot of animals

Model	Axle Type	Capacity lbs/kgs	Deck Dimension (width x length)	Outside Dimension (width x length)
MASM8-13EA	Single	15,000/6500	7'5" x 12'9"	8'6" x 18'8"
MASM8-18EA	Tandem	20,000/9000	7'5" x 18'6"	8'6" x 24'5"

Optional

- Ticket Printer
- Tape Printer
