MAS-LC ANIMAL SCALE

Multi-Animal Scale System

20,000 Pound Capacity from 13' x 8' to 22' x 10'

The MAS-LC provides reliable, accurate weighing for ranchers and processors that prefer a load cell based weighing system. This scale combines the accuracy of fully electronic weighing technology with steel I-Beam weigh bridge designs typically found in heavy capacity vehicle weighing scales. With a wide range of sizes, the MAS-LC is the right choice for any stationary weighing application.

Racks & Gates

3" thick wall tubing for the sectional uprights with 2" horizontal thick wall tubing connecting the uprights. Powder coated 11 gauge steel plate above the structural I-Beam is 4 feet tall and ensures reliable containment.

Deck Construction

The shipping weights of the MAS-LC scales tell the story. This scale is not only one of the heaviest in its class; it is also extreme duty. Steel I-Beam construction using W 16" x 26 lb per foot structural main beams with S 4" x 7.7 lb per foot cross beams with 1.5" x 1/4" stringers between the beams. This weigh bridge is built to last a generation or longer.

Stationary Load Cell Scale	
13' x 8' LC	15' x 8' LC
17' x 8' LC	19' x 8' LC
22' x 8' LC	22' x 10' LC

Heavy duty latch assembly

Transport overload stops

X-Lug Flooring

This recycled product is made from discarded plastic and rubber that would otherwise crowd our landfills. X-Lug flooring never rots, is abrasion resistant and will not harbor bacteria and moisture like wood flooring. This environmentally friendly product is 8" wide and 2" thick with 3/4" x 1" ribs that provide unmatched traction for animals when conditions become wet and sloppy inside the scale.

Legal For Trade

Like all MAS series scales, the MAS-LC is certified for commercial use in both the United State and Canada. Certified scales are held to exacting design characteristics providing accurate weights allowing you to sell across the scale. Add a choice of digital weigh centers, printers, or remote displays and you will have an easy to use system that will provide years of proven performance.

Optional

- Ticket printer
- Tape printer
- 590AG indicator
- 920i weigh center
